

Emission Reduction Plan

Ningaloo Discovery

Member Number: AT10727077 12 Month Ending: Mar 2025
 Industry: Accommodation, Tourism & Food Services Date of Report: 11 August 2025
 Location/s: Western Australia Member Since: Mar 2025
 Core Stages: Complete

Stage / Option	Action Detail			By When	Status
1:Measure	We are committing to take action to reduce carbon emissions				
	Carbon emissions footprint: 29.1 tonnes Less sponsored offsets: 0 tonnes Net carbon emissions footprint: 29.1 tonnes Emission data validation: Estimated using the Carbonhalo calculator Top Three of emissions: Business Fuels, Waste, Work From Home				✔ Complete
2:Reduce	We are adjusting operations to reduce emissions				
	Use sustainable products	We use eco label/environmentally friendly products on board including our dishwashing liquid, baby shampoo and disinfectant to wash the gear.		By 2025	✔ Complete
	Source locally	We purchase all of our food from local establishments such as our bread from the local bakery, meat from the local IGA as well as all of our other groceries. We also use the local hardware store for our appliances.		By 2023	✔ Complete
	Install composting	We plan to have a separate compostable bin for our food waste at the end of each tour		By 2025	⊖ Underway
	Reduce waste to landfill	We aim to start buying products in bulks so that we have less waste that is going to landfill		By 2026	⊖ Underway
	Encourage bikes and scooters	We have a safe place to store bikes and encourage employees to walk or bike to work each day.		By 2025	✔ Complete
	Encourage ride-sharing	If crew do need to drive to work on warm days in the summer to avoid heat stress, we encourage them to ride share with other crew.		By 2025	✔ Complete
	Implement hybrid working	We have a mobile phone and office staff have access to logins so that they can work from home when it is suitable.		By 2025	⊖ Underway
	Buy second hand furniture	We try to buy things second hand off the community pages and the op shop when we need new furniture for the shop.		By 2025	⊖ Underway
	Source greener office supplies	We endeavour to shop locally for supplies and use greener or recycled materials.		By 2025	⊖ Underway
	Choose sustainable suppliers	We try source locally and from suppliers that are sustainable such as our crew rashies and hats are made of recycled plastic bottles and turned into swimwear.		By 2025	⊖ Underway
	Offer plant-based menu options	We offer plant based options to guests and all of our salads on board the boat are meat free		By 2025	⊖ Underway
Optimise tour routes	We offer a select amount of pick up locations in town so that if guests are staying close by, they can meet at one of the few locations offered so we have less driving and fuel emissions		By 2025	✔ Complete	
3:Avoid	We are adopting renewables for purchased power				
	Our Locations	Current Renewable Adoption	Action for 100% transition	Goal for 100% Transition	
Exmouth	Low	Renewable Energy Certificates GreenPower Carbon Neutral Energy	By 2030	✔ Complete	
Support	I'm supporting other businesses in efforts to combat climate change				
	Groups I have joined: Business community climate action program				

Based on the **ERC Protocol**® by  carbonhalo

Estimated Carbon Emissions are calculated from user input into the Emissions Estimator, which uses recognized emissions standards, including the GHG protocol, ISO 14064, EPA Guidelines and those issued by the Department of Climate Change, Energy, the Environment and Water.
